REFERENCING STYLE

The Journal of Rehman Medical Institute (J Rehman Med Inst.; JRMI) follows the Vancouver style of Referencing, as recommended by:

The International Committee of Medical Journal Editors (<u>www.icmje.org</u>), and displayed at their website:

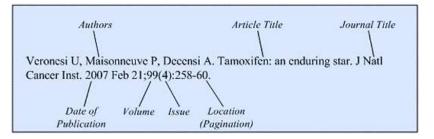

http://icmje.org/recommendations/browse/manuscript-preparation/preparing-for-submission.html#g,

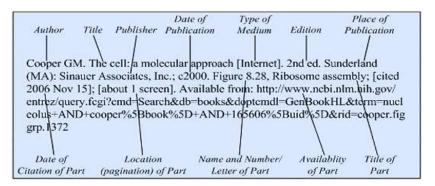

> And at the National Library of Medicine website:

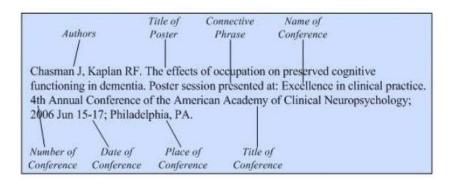

(https://www.nlm.nih.gov/bsd/uniform_requirements.html).

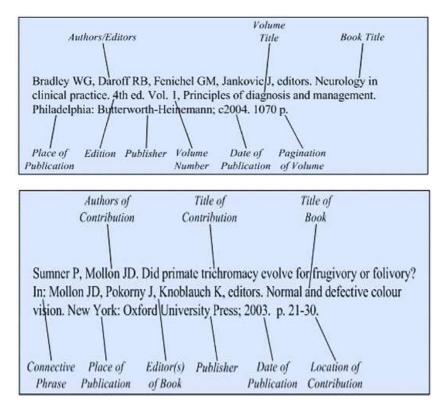

The Vancouver style offers many advantages over other styles, and authors are requested to develop competency in the use of this style in preference to any other.

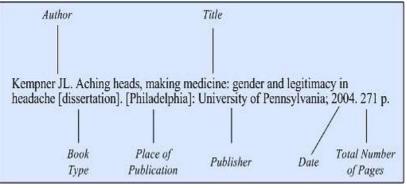

Common Vancouver Formats:

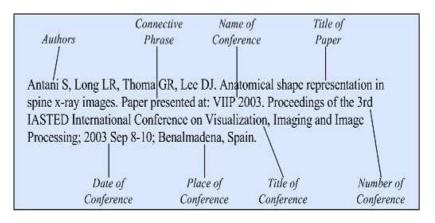

| Connective | e Authors of | Editors of | 2 39 | Title of | Conference | Date of |
